## Skiing experience (circle)

Level 6 – I ski blue and groomed black runs with a fairly narrow stance. I control my speed effectively on such terrain but can't always link turns.

Level 7 – I ski blue and some black terrain with confidence and can handle moderate bumps in control at moderate speed.

Level 8 – I ski black diamond terrain with confidence and can handle moderately wide spaced bumps in balance and control at moderate speed. I bail out occasionally in tight bumps and may have trouble linking turns in difficult snow.

Level 9 – I am an expert skier. I ski with confidence and grace on all groomed terrain but would like to polish my skills in the gates, bumps, ice, heavy powder and crud. I seek challenge in clinic programs.

\_\_\_\_\_ I'm not at this level of skiing
